575 Mountain Avenue  
Murray Hill, New Jersey 07974

Attention: Randy Abernathy, Project Engineer

Gentlemen:

We are now in the position to go ahead with your proposed arrangement for our needed pollution control equipment.

After the installation of the first control unit, it is our understanding that there will be no charges until the Pennsylvania Environmental Control people o.k. the project.

Could you please send us an up-to-date quote to assist us with our financial arrangements?

Very truly yours,

LURGAN CORPORATION

Kenneth H. Gibson  
President
